Dear Friends and Neighbors,

At Glo! Lighting Services, it's our pleasure to provide a festive ambiance to your home for the holidays. Whether you are hosting an **elegant** business party, a **warm** family gathering, or just enjoy coming home to a **hassle-free** lighting design, we can help.

Last year, our team enabled over **135 homes** to glimmer with holiday cheer. Our specialty has always been installation, servicing, and clean-up for a traditional home Christmas lighting package, but we continue to see a high demand for rental of complimentary decorations. We also are now offering two additional services: **rain gutter cleaning** and **solar panel cleaning**. Why not have your home maintained at a discount as we install your lights?

We'll be calling soon to schedule your appointment, but if you'd like to take advantage of our **discounts and priority booking**, please call, text, or email us today. Thank you for your continued business—we look forward to the opportunity to bring your home to life for another festive season!

Happy Holidays,

Danny Gorden
Owner, Glo! Lighting Services

Rental items can add the perfect final touch to your lighting job.

How will your home *Glo!* this year???

Additional Services

Rain Gutter Cleaning

This year the weather experts are predicting an “El Nino” season. Clogged rain gutters can damage a home with mold, rotted wood, and warped paneling, not to mention a big mess! Let our specially-trained team clear your gutters of leaves and debris.

With Lighting installation:

First story gutters: \$1.00 per foot | Second story gutters: \$1.50 per foot

Without Lighting installation:

First story gutters: \$1.50 per foot | Second story gutters: \$2.00 per foot

Solar Panel Cleaning

It is estimated that dirty solar panels can lose up to 30% of their solar absorption. Experts recommend cleaning panels twice a year. We'll handle the risk and stress while you enjoy the energy savings!

With Lighting installation: \$10 per panel

Without Lighting installation: \$12 per panel

As always, Glo! strives to provide quality service at reasonable prices.

Let's work together to make sure your home is **holiday-ready:**

bright, safe, and protected.

Accessories for 2015

Lighted Reindeer

If you've ever tried to wrestle the set-up of a lighted reindeer you probably know: the reindeer usually wins! Why not let us do the work for you? Our reindeer are 5' tall and are available in either standing buck or grazing doe. We can even add a lighted red "Rudolph" nose if you like!

One deer rental: \$45 | Two deer rental: \$85

Megatrees!

Megatrees greatly increase the curb appeal of your lighting job. Display elegance and beauty in your community with a fully-lighted tree in your front yard. Our custom design withstands high winds, won't hinder gardeners and won't damage your yard. Choose your own color pattern.

10' tree: \$100 | 5' tree: \$60

Best Value!—Two 5' trees and one 10' tree: \$200

Exterior Wreathes

Give your home a classic look with a wreath designed to compliment the décor of your home. Choose between our standard 4' lighted wreath or let us install a wreath that you provide.

Traditional 4' Wreath: \$50 | Owner's Wreath (install only): \$25

All prices include setup, rental, maintenance, and tear down.

2015 Holiday Specials

-Social Media Discounts! Your public support is our best advertising. Leave positive feedback on our Facebook or Yelp! page and receive a **\$5 discount**.

-Book Early and Save! Schedule your lighting installation before October 31st and receive an automatic **\$25 discount**. Space is limited! Contact us now to reserve your spot.

*Lights must be installed prior to October 31st.

-Refer a Friend! For every referral you give us, we will take an additional \$25 off of your service. Family? Friends? Neighbors? Up to five referrals—*that's a discount of \$125!*

Remember, our service includes:

- Free repair if any lights go out
- Free removal of lights at the end of the season
- Timers for your convenience
- Choose from a large variety of lighting options
- Storage of lights during off season
