Dear Valued Customer,

At Glo! Lighting Services it is our pleasure to provide a festive ambiance to your home for the holidays. Whether you are hosting an elegant business party, a warm family gathering, or just enjoy coming home to a hassle-free lighting design, we can help!

Our company takes pride in full service packages—high-quality installation, servicing/maintenance, and clean-up for residential and commercial Christmas lighting. We also offer a fun selection of specialty products including lighted reindeer, exterior wreathes, and our client favorite: our custom-designed mega trees! (See enclosed flier for details.)

We're also pleased to offer additional maintenance services for rain gutters and solar panels. These "out-of-sight, out-of-mind" investments can become costly if neglected... fortunately, we're already on the roof for lighting and can offer free inspections and discounted pricing for multiple services. You'll enjoy the visual beauty of our lighting display for the holidays and year-round assurance of maintenance on your home.

We'll be reaching out to schedule your appointment soon but if you'd like to take advantage of our discounts and priority booking, please call or text us today. Thank you for your continued business—we look forward to lighting your home for another holiday season!

Sincerely,

Danny Gorden
